LAWN CEMETERY & CREMATORIUM

Oak Hill Lawn Cemetery and Crematorium

A special place to remember

Oak Hill is more than just a lawn cemetery and crematorium. It is a place where you can honour and celebrate the lives of those who have left us, in a serene and tranquil setting. Whether you choose a burial or a cremation, we have a variety of options for memorials and tributes that reflect the personality and preferences of your loved ones.

Our friendly and professional staff will guide you through every step of the process, ensuring that you receive a service that is respectful, compassionate, and personalised. At Oak Hill, we understand that losing someone is never easy, but we hope to provide you with some comfort and support in this difficult time.

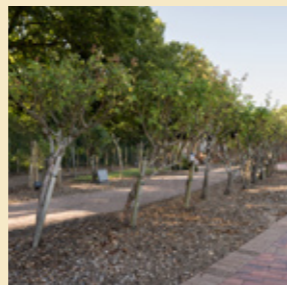

Oak Hill was established in 1984 on the outskirts of Hatfield, where it overlooks the stunning scenery of the Hertfordshire countryside. In 2023, we underwent a major renovation to offer more choices for memorialising loved ones in our beautifully landscaped gardens. We also received the prestigious Green Flag Award, which recognises our high standards of environmental quality and service. Oak Hill is a haven for nature and for you.

Memorialisation is a meaningful way of creating something that will withstand the test of time and a place you can visit and return to on different occasions. At Oak Hill Cemetery our team will be able to guide you through a variety of options which will cater to your requirements. All our memorial options below should be purchased through the Oak Hill Bereavement Team.

The memorials listed below are licenced for a minimum of ten years and can be renewed at any time during the licence period or before the expiry date.

Rose Tree and Rose Bush (minimum 10-year licence)

One of our charming rose trees or rose bushes can be dedicated in memory of a loved one. Should you choose, up to two sets of cremated remains can be scattered loosely (not in a container) at the base of the rose tree or rose bush.

You may also wish to purchase and place one of our stylish granite memorial

plaques, which come in a range of different designs with a motif or inscription of your choice.

Memorial Garden Kerb (minimum 10-year licence)

This token of remembrance allows a personal message to be inscribed on the granite plaque, which is placed within our specially designed landscaped Rose Garden.

Each garden kerb is made from natural material quarried and perfectly cast to give a lasting base for your memorial tablet. The tablet is made from

polished granite with space for a personal inscription of approximately 100 characters including spaces. Here, up

to two sets of cremated remains can be scattered loosely (not in a container), in the earth behind the memorial.

The scattering can be performed in the presence of family members or without their attendance. Our colleagues will be able to assist regardless of the selected option and carry out this duty with the utmost respect, care and dignity.

Cremated remains cannot be placed with the plaque but instead scattered loosely (not in a container).

We will keep a record of their final resting place on our memorial database, however the position will remain unmarked.

The scattering can be performed in the presence of family members or without their attendance. Our colleagues will be able to assist regardless of the selected option and carry out this duty with the utmost respect, care, and dignity.

Post Box

Priding ourselves on serving our community with exceptional care, we are delighted to be installing our rustic post box.

The post box has been created by skilled craftsmen, using only UK sourced materials. This allows people to send a heart-warming 'letter to their loved one' to those they have lost, in hope that this gives them some comfort on the grief journey. We look forward to welcoming more people to our beautiful Cemetery and finding comfort in placing their letters to their loved ones.
